

Handleiding instellen persoonlijk Digital ID

Vul eerst het document in

Druk helemaal op het eind, na het invullen op het handtekeningveld rechtsonderin. Indien je de laatste versie van Adobe Reader gebruikt verschijnt vervolgens het volgende beeld.

Note: Indien je een ander scherm ziet waar je al een handtekening kan selecteren dan heb je er ooit al eens een aangemaakt, kies diegene die je al hebt. Indien die niet klopt, kun je ook een nieuwe aanmaken en je komt alsnog op het volgende scherm.

A Digital ID is required to create a digital signature. The most secure Digital ID are issued by trusted Certificate authorities and are based on secure devices like smart card or token. Some are based on files.

You can also create a new Digital ID, but they provide a low level of identity assurance.

Select the type of Digital ID:

- Use a Signature Creation Device**
Configure a smart card or token connected to your computer
- Use a Digital ID from a file**
Import an existing Digital ID that you have obtained as a file
- Create a new Digital ID**

Digital IDs are typically issued by trusted providers that assure the validity of the identity. Self-signed Digital ID may not provide the same level of assurance and may not be accepted in some use cases.

Consult with your recipients if this is an acceptable form of authentication.

Create a self-signed Digital ID

Enter the identity information to be used for creating the self-signed Digital ID.

Digital IDs that are self-signed by individuals do not provide the assurance that the identity information is valid. For this reason they may not be accepted in some use cases.
